

Help for estimating the threat of abduction

Signs mentioned below may increase the threat of child abduction. The more of the criteria you meet the more important it is to get some help.

1 POSSESSIVE PARENT

The parent has tried or threatened to abduct the child, or takes for granted that the child belongs to them and their family.

2 DISAGREEMENTS WITH UP-BRINGING

The parents have serious disagreements in the matters that concern the child, e.g. education, religion, health care and hobbies.

3 VIOLENCE

The parent is guilty of physical or psychological domestic violence, persecution or mistreatment of the child.

4 TRAVEL DOCUMENTS

The parent applies for travel documents for the child (passport, visa, identity card) without the trip having been agreed. The parent aims to get the child's documents, e.g. birth, health or school documents.

5 CLEAR CHANGE IN BEHAVIOR

The parent suddenly starts to teach their own language and culture, although they have not considered it important before.

6 DIFFICULTIES TO INTEGRATE

The parent does not have other connections to Finland except the child, they are not integrated. The parent might abandon the permanent apartment or work or lose them.

7 DOESN'T VALUE THE DECISIONS OF AUTHORITIES

The parent does not respect the decisions by Finnish authorities of the child's custody, maintenance and visiting rights.

8 REFUSAL OF ENTRY

The parent is going to get a refusal of entry, their citizenship application is rejected or they even do not want to apply for the citizenship, although there have not been intentions to move to another country.

Abducted Children Finland NGO has collected signs of threat of child abduction. Dozens of our members and callers have participated in making the list.

**WE HELP YOU TO ESTIMATE THE THREAT OF CHILD ABDUCTION.

Abducted Children Finland NGO

— *supporting you*

We give help and support to children who have been abducted, who live under the threat of abduction or who have become a target in difficult international custody disputes. We defend their fundamental and human rights.

Toivon Talo – a support and help centre maintained by the organization – informs, gives advice to parents, coordinates peer support and organizes empowering and refreshing activities for the whole family.

Abducted Children Finland NGO was founded in 1997.
